

Свет и тень черной дыры

Shadow: $R = \frac{\sqrt{27}}{2}r_s \approx 2.6r_s$

Photon Sphere: $r = 1.5r_s$

Event Horizon: $r_s = \frac{2GM}{c^2}$

Singularity

A diagram illustrating the structure of a black hole. It features three concentric circles on a dark gray background. The innermost circle is solid black and labeled 'Singularity' in white text. The middle circle is a thin yellow line, labeled 'Photon Sphere: r = 1.5r_s' in yellow text. The outermost circle is a thin blue line, labeled 'Shadow: R = (sqrt(27)/2)r_s approx 2.6r_s' in blue text. To the right of the circles, the formula for the event horizon is given: 'Event Horizon: r_s = (2GM)/c^2'.
